

**MHSA Long-Term Result:
Wellness, Recovery, & Resilience for Identified Populations**

**Capital Facilities & Technological Needs (CFTN) Results:
Improved Service Delivery for Mental Illness through Infrastructure and Technology**

Capital Facilities Results:

- Expansion of the capacity/access of existing services or provision of new services
- Increase in peer-support and consumer-run facilities
- Development of community-based, less restrictive settings that will reduce the need for incarceration

Technological Needs Results:

- Increase in mental health care transparency and accountability
- Strengthening of secure client and family access to health information that is culturally and linguistically competent
- Increase in quality of care, parity, operational efficiency, and cost effectiveness
 - Support of uniform interoperability standards

Strategies

Repair/Replacement Reserve for CF Buildings

Construction or renovation of buildings

Acquisition of land or buildings

Health Information/Access Tool Development

Modernization and transformation of clinical and administrative information systems

Use and Development of Technology to Support Evaluation and Performance Measurement

Services/Activities

- Architectural and engineering design
- Construction/Renovation of CSU

- Electronic Health Record (EHR) System Development
 - Computer Access for Consumers/Family
 - Electronic Data Warehouse Development
 - Electronic Document Imaging
 - Software Maintenance/Upgrades/Enhancements
 - Computer Maintenance/Upgrades

Program/Project

Crisis Stabilization Unit (CSU) Project

Program/Project

EHR Project

Consumer Family Access to Computing Resources Project

Electronic Data Warehouse Project

Electronic Document Imaging Project
