

MHSA Long-Term Result:
Wellness, Recovery, & Resilience for Identified Populations

Capital Facilities & Technological Needs (CFTN) Results:
Improved Service Delivery for Mental Illness through Infrastructure and Technology

Technological Needs Results:

- Increase in mental health care transparency and accountability
- Strengthening of secure client and family access to health information that is culturally and linguistically competent
- Increase in quality of care, parity, operational efficiency, and cost effectiveness
 - Support of uniform interoperability standards

Strategies

Health Information/Access
Tool Development

Modernization and transformation of
clinical and administrative information
systems

Use and Development of
Technology to Support
Evaluation and Performance
Measurement

Services/Activities

- Electronic Health Record (EHR) System Development
 - Computer Access for Consumers/Family
- Electronic Data Warehouse Development
 - Electronic Document Imaging
- Software Maintenance/Upgrades/Enhancements
 - Computer Maintenance/Upgrades

Program/Project
