

MHSA Long-Term Result: Wellness, Recovery, & Resilience for Identified Populations

MHSA Long-Term Result:
Wellness, Recovery, & Resilience for Identified Populations

CSS Results:
Elimination of disparity in access
Improvement of mental health outcomes for racial/ethnic populations and other unserved and underserved populations

FSP Results:

- Decreased incarcerations
- Decreased psychiatric hospitalizations
- Decreased medical hospitalizations
- Decreased homelessness
- Increased employment

GSD Results:

- Decreased Stigma
- Increased self-care
- Increased access to community resources
- Decreased need for extensive and expensive services

O&E Results:
Diverse and underserved communities are reached

MHSA Long-Term Result:
Wellness, Recovery, & Resilience for Identified Populations

CSS Results:
Elimination of disparity in access
Improvement of mental health outcomes for racial/ethnic populations and other unserved and underserved populations

- FSP Results:**
- Decreased incarcerations
 - Decreased psychiatric hospitalizations
 - Decreased medical hospitalizations
 - Decreased homelessness
 - Increased employment

FSP Strategy

Proposed Services/Activities

Targeted Population:
TAYA with SMI

Targeted Population:
Individuals with SMI from diverse cultural/ethnic populations

Targeted Population:
Individuals with SMI currently placed, at-risk for, or exiting institutional settings.

- Expand capacity to provide:
- Integrated intensive community services and supports
 - 24/7 availability

- Navigation supports for family, clients and community
- Community education & awareness of FSP, treatment services and peer supports

- ISA 24/7
- 12:1
- Wraparound

Proposed Programs

FSP-01
Josie's TRAC
12 slots

communities are reached

O&E Strategy

Proposed Services/Activities

Targeted Population:
Adult Homeless SMI

Housing center enhancements
to expand:
•Engagement through intensive
transitional support
•Connections/referrals

Proposed Programs

O&E-02
Garden Gate Respite Housing

MHSA Long-Term Result: Wellness, Recovery, & Resilience for Identified Populations

Prevention & Early Intervention Results:

Reduced stigma & discrimination – Increased timely access to underserved & unserved populations – Decreased negative outcomes that may result from untreated mental illness (suicides, incarcerations, school failure or dropouts, unemployment, homelessness, removal of children from their homes and prolonged suffering)

Universal Prevention Results:

- Mental health awareness
- Increased knowledge about mental health, mental illness (SMI/SED), and early signs of mental illness

Selective Prevention Results:

- Increased knowledge about mental health, mental illness (SMI/SED) and signs
- Individuals at risk for SMI/SED are engaged & supported
- Reduced risk factors for SMI/SED
 - Developed/strengthened protective factors

Indicated Prevention Results:

Individuals exhibiting onset of SMI/SED or with MH issues and their families are:
Engaged
Supported
Screened/referred

Early Intervention Results:

- Individuals exhibiting onset of SMI/SED or with MH issues and their families are provided services in a timely manner

Strategies

Promotion of Mental Health

Mental health training & education

Outreach & engagement

Community support

Community capacity building

Screening & Referral

 - Developed/strengthened protective factors

Indicated Prevention Results:

Individuals exhibiting onset of SMI/SED or with MH issues and their families are:
Engaged
Supported
Screened/referred

Strategies

Promotion of Mental Health

Mental health training & education

Outreach & engagement

Community support

Community capacity building

Screening & Referral

Peer Support

Proposed Services/Activities

• Rural ethnic/cultural underserved and at-risk populations within specific communities

- MH planning at community level
 - Training on MH issues
- Leadership development activities

- Latinos and underserved populations exhibiting onset of SMI
- Latinos and underserved populations with MH issues
- Families of populations with MH issues

Expansion of:
• Referrals
• Peer support – individual & groups

Proposed Program

Promotores/ABCD combination and expansion

MHSA Long-Term Result:
Wellness, Recovery, & Resilience for Identified Populations

Innovation Result:
Development of new best practices in mental health

Results:
Increased interagency & community collaboration for MH services or supports

Results:
Increased quality of MH services

Results:
Increased access to underserved populations

Results:
Increased access to mental health services

Strategies

Introduce a mental health practice or approach that is new to the overall MH system

Make a change to an existing practice in the field of mental health

Applies to the MH system a promising community-driven practice or approach that has been successful in non-mental health contexts or settings
